

The Institute of Low Temperature Science Symposium
13th Workshop on Monitoring and Change in Permafrost

Date: 16 (Fri) – 17 (Sat), March 2012

Venue: The Institute of Low Temperature Science (Hokkaido Univ.), Room 215

Presentation: 20min.

Discussion: 20min.

		Presenter	Title	Affiliation
3/16 (Fri)				
AM		Chair: T. Sueyoshi		
9:30	9:40	Tetsuo Sueyoshi	Opening	Hokkaido Univ.
9:40	10:10	Koui Kim	Deformation and failure response of snow to the deformation velocity	NIPR
10:10	10:40	Yuki Sawada	Warm air hole observed in Oodate, Akita prefecture	Fukuyama mun. Univ.
10:40	11:10	Kenji Yoshikawa	Call for corporation: Strategy to frosttube observation networking in Japan	UAF
11:10	11:20	Break		
11:20	11:50	Go Iwahana	Stable isotope profile of ground water containing ground ice sampled in yautsk and Chogulda	IARC/UAF
11:50	12:30	Tatsuya Watanabe	structure and formation environment of the patterned ground in the continuous permafrost site of central part of Spitzberge	Tsukuba Univ.
12:30	13:30	Lunch		
PM		Chair: M. Ishikawa		
13:30	13:50	Tetsuo Sueyoshi	Meeting report: ESA DUE Permafrost (Final user workshop)	JAMSTEC
13:50	14:10	Norikazu Matsuoka	Towards the strengthening/expansion of the ground surface variation observation network in permafrost region	Tsukuba Univ.
14:10	14:40	Yoshihiro Iijima	Ecological and hydrological changes induced by soil water increase of active layer in Yakutsk region, east Siberia	JAMSTEC
14:40	14:50	Break		
14:50	15:50	MEETING	Discussion: Permafrost research plan in conjunction with the framework of GRENE-Arctic	
15:50	16:00	Break		
16:00	17:30	Chair: M. Ishikawa Yugo Ono	Glacial and periglacial geomorphology research of Japan: 1960-2010 ---- Personal retrospect and outlook ----	Hokkaido Univ.
18:30~		Mamoru Ishikawa	Closing remarks	
			Reception	
3/17 (Sat)				
10:00	Steering Committee			Business meeting
