

Date	June. 25 (Thu) - June.26 (Fri), 2025			
Venue	Institute of Low Temperature Science, Hokkaido University	Room 210 @ ILTS		
June. 25 (Thur)				Chair
13:30 - 13:40	Logistics for WS	Masahiro Minowa (ILTS)		
14:00 - 14:30	General introduction of RINGS and Update JARE68 logistics	Kenny Matsuoka (NPI)	onsite	Masahiro Minowa
14:30 - 15:00	JARE Marine Geophysics: JARE67 Results (2025/26) & JARE68 Plans (2026/27)	Masakazu Fujii (NIPR)	online	
break 15 min				
	Update recent progresses and potential collaborations			
15:15 - 15:45	Radar development update	Taishi Hashimoto (NIPR)	onsite	Shuntaro Hata
15:45 - 16:15	Firn modelling	Jun Saito (ILTS)	onsite	
16:15 - 16:45	SMB modelling	Masashi Niwano (Met. Research Institute)	onsite	
16:45 - 17:15	SMB reconstruction	Adriano Lemos (FMI)	online	
18:00 - Dinner				
June 26 (Fri)				
9:00 - 9:30	Filchner-Ronne Ice Shelf ocean modelling	Hiroki Moriyoshi (ILTS)	onsite?	Masashi Niwano
9:30 - 10:00	Antarctic ice sheet modeling with IceES2	Takashi Obase (JAMSTEC)	onsite	
10:00 - 10:30	Basal melting of Shirase Glacier Tongue	Masahiro Minowa (ILTS)	onsite	
break 15 min				
10:45 - 11:15	Status update of IBCSO	Boris Dorschel-Herr (AWI)	onsite	Ken Kondo
11:15 - 11:45	AWI's gravity-inverted bathymetries until 2023	Graeme Eagles (AWI)	onsite	
11:45 - 12:15	Gravity inversion as a tool for revealing sub-ice shelf bathymetry: recent results and new ideas	Laura Höppner (AWI)	onsite	
12:15 - 12:30	A solo flight from Ushuaia to the Geographic South Pole	Shannon Wong	online	
12:30 - 12:45	Discussion on flight plan 1			
Lunch	group photo			
14:00-14:30	Seismic and radar observations on an active subglacial lake at Telen Glacier, East Antarctica	Ken Kondo (Nagoya Uni.)	onsite	Jun Saito
14:30-15:00	Marginal lakes or borehole optical observation?	Shuntaro Hata (NIPR)	onsite	
15:00-15:30	Observations of Ice-Ocean Interactions at Shirase and Totten Glaciers	Daisuke Hirano (NIPR)	onsite	
break 15 min				
15:45-16:15	Seismic surveys at Nivlisen Ice Shelf and links to RINGS	Vikram Goel (RCPOR)	online	Laura Höppner
16:15-16:45	Processing of CHINARE/RINGS airborne RES data and reconstruction of basal DEM around a candidate subglacial lake in Enderby Land, East Antarctica	Chen Lv (Tongji Univ.)	online	
16:45-17:15	Where should we fly over grounded ice: data coverage, bed elevation uncertainties, and their consequences for ice dynamics	Kenny Matsuoka (NPI)	onsite	
17:15-18:00	Discussion on flight plan 2 and closing
